

Following consultation with the HSE a new British Standard for Workplace First Aid Kits (BS-8599) was introduced in 2011. The new kits contain some extra, sensible items such as scissors, adhesive tape, burns dressings, foil blankets, finger dressings and Sterile wipes that were not standard before. To help match the level of workplace risk the new kits are available in four sizes – small, medium, large and travel. Decide on the size and quantity of kit required to suit your risk needs assessment.

Recommended Size of Kit:	Small	Medium	Large	Travel
Lower Risk: <i>e.g. offices, shops and libraries etc</i>	Less than 25 employees	25-100 employees	More than 100 employees	Per vehicle
Higher Risk: <i>e.g. food processing, assembly work, warehousing, engineering, construction, manufacturing etc</i>	Less than 5 employees	5-25 employees	More than 25 employees	Per vehicle
